# Training Partnership Initiative

Wilma Doedens, Nguyen-Toan Tran, Kristen Harker
Inter-agency Working Group for Reproductive Health in Crises
Women's Refugee Commission

## Training Partnership

- Scarcity of trainers
- Updating,
   dissemination and
   promotion of training
   materials
- Lack of sustainable financial resources to implement training
- Keeping track of trainers/trainees

## Aim: Local capacity development

- To establish partnerships between the IAWG and training institutions from crisis-prone countries
- to assure quality training on RH in emergency preparedness and response on a regular and sustainable basis.
- To effectively increase the local and regional capacity to effectively coordinate and deliver quality RH care from the beginning of a crisis response

## Training Partnership

Coordination

- Scarcity of trainers
- Updating, dissemination and promotion of training materials
- Lack of sustainable financial resources to implement training
- Keeping track of trainers/trainees

## Training Partnership

- Information sharing platform
- Training resource development
- Operational research

Information exchange

- Resource development
- Capacity building
- Coordination

Challenges for RH in crises

Action

## **SURGE Capacity**

- Training SRH coordinators as part of SURGE emergency response
- Modeled after GENCAP
- SRHCAP roster managed by NORCAP
- 5-day training on skills to coordinate the implementation of the MISP for SRH coordinators

## Clinical Refresher Trainings

- Clinical refresher modules
  - Objectives 2, 3 and 4 of the MISP
  - Competency-based
  - For health-care providers with a baseline of skills
  - Delivered through outreach
- Planned:
  - Standard precautions
  - BEMONC

## **Operational Research**

- Clinical refresher trainings 
   at individual level
  - OR: In the next 3 6 months.

- (MISP to CSRH) → at institutional/systemic level
  - OR: if funding is secured.

## Overall operational research approach

- Why OR?
  - To help the decision making process of policy-makers and program managers
- OR goal
  - To contribute to strengthening access to and quality of life-saving SRH services in humanitarian settings.
- OR Hypothesis for field-based refresher training courses
  - Field-based and locally-owned capacity development strategies, such as clinical refresher training courses, can contribute to strengthening the competencies of health staff working in humanitarian settings.
- Specific OR objective
  - Through participatory approaches, to explore enablers and barriers related to the implementation of the capacity building approaches of the IAWG-TP.

## Where?

In selected countries of sub-Saharan Africa and Asia where implementing clinical and research partners have been identified for the clinical refresher training courses.

- Institut Africain pour le Sante Publique, Burkina Faso
- Juba College of Nursing and Midwifery supported by IMC, South Sudan
- Family Planning Association of Nepal
