## FLASH (SPEED ROUND): 16:20- 17:40, AD12 – *Interprétation française*

### **1.4.9 Postpartum and postabortion family planning and service deliveries / La planification familiale et prestation de services post-partum et post-avortement**

- Beyond Low Hanging Fruit: Extending Family Planning Reach in North Kivu, DRC (1.4.9.1) - *Save the Children*

**SIDE EVENT:** 19:00- 21:00, AD12  
Hosted by UNFPA and IAWG

**UNFPA and the Inter-Agency Working Group on Reproductive Health in Crisis (IAWG) would like to invite you to join us for “All in together: Ensuring contraceptive coverage at every stage of crisis.”**

This event aims to bring together advocates, researchers and implementers to celebrate the learning shared at the International Conference on Family Planning in Kigali. Further, the event aims to link the experiences of providing SRHR in crises to the *2018 Inter-agency Field Manual on Reproductive Health in Humanitarian Settings (IAFM)*. Implementers are already doing the work described in the new IAFM and this event is an opportunity to share their voices.

These stories will be followed by a jeopardy game, in which we will tackle myths and expand our understanding around safe abortion care, contraception and adolescent sexual and reproductive health. It is our hope that this event will bring a diverse group of actors together to better understand the role each plays in ensuring that women and girls gain access to quality contraception regardless of their circumstances – whether right at the onset of crisis, before or after.

**WEDNESDAY, 14 NOVEMBER**

**POSTERS:** 8:00- 11:00,  
Auditorium Terrace - Session 4

- Using formative research and program data to improve access to family planning and broaden the method mix in conflict-affected areas of the DRC (4.051) – IRC

INTER-AGENCY WORKING GROUP  
ON REPRODUCTIVE HEALTH IN CRISES

## **PREFORMED PANEL : 10:25-11:45, MH2 – *Interprétation française***

### **2.1.2 Choice under any circumstances: Improving contraceptive use in humanitarian settings/ Avoir le choix en toute circonstance : Améliorer l'utilisation de la contraception en situation de crise humanitaire**

*RAISE Initiative, Columbia University, CARE, IRC, Save the Children*

- Increasing modern contraceptive use in North and South Kivu, Democratic Republic of the Congo
- Diversifying method mix in crisis-affected settings
- Integrating post-partum IUDs into contraceptive programs in DRC and Somalia  
Background
- When training isn't enough: Clinical coaching to improve the quality of LARC services in Chad, DRC and Myanmar

## **FLASH (SPEED ROUND) : 11:55- 13:15, MH4 – *Interprétation française***

### **2.2.14 Contraceptive discontinuation, failure, and their determinants / L'interruption et l'échec de la contraception, et leurs déterminants**

- Twelve-month contraceptive continuation among women initiating short- and long-acting reversible contraceptives in North Kivu, Democratic Republic of the Congo (2.2.14.8) - *RAISE Initiative, Columbia University, Save the Children*
